Note: No bearings, U.S.G.L.O Monument references, nor distances are recorded for GL 03 Section 21 T36N R08E. Register of Deeds document 785861 recorded August 30, 2018 reaffirms the claim by the State of Wisconsin Board of Commissioners of Public Lands as the owner, when ownership of the lands transferred from the United States of America to the State by Federal Swamp Land Patent No 10 of the Wausau District dated November 11, 1881. This is in accordance with an Act of Congress of the United States of America, which was approved September 20, 1850. The lands have remained in the possession of the State of Wisconsin and have not been sold or transferred since November 11, 1881. This Government Lot has not been surveyed other than to denote the Forty-Government Lot Lines at the north between GL03 and GL01 Section 21 T36N R8E and at the south between GL 03 and GL05 Section 21 T36N R8E. The shoreline distance on Lake Emma for GL03 was estimated using the GIS Mapping online tools available. Note: There is an apparent gap of approximately 26 ft continuing southwest from this point. An area of confusion exists, see Oneida Survey Map B4671 and Oneida County Certified Survey Map 1596, and certain boundary lines do not match. Additionally there appears to be possible duplicate boundary lines for the West N-S Quarter Section Line of GL02 Section 20 T36N R08E, see said maps and Certified Survey Map 3804. The bearing and distance of the different west lines of said GL02 are enough to shift the continuing survey lines to meet this point. Additionally, this area involves a vacated Town Road and the records are not clear. The continuation of the boundary description acknowledges this gap and resumes beginning at point described as beginning at the southwest corner of GL02 Section 20 T36N R08E, thence along the West N-S Quarter Section Line of said GL02 N05°56'14"W to an iron pipe (1168 ft +/-), thence N35°E (490 ft +/-), thence N65°W (138 ft +/-), as described in Oneida County Register of Deeds Document 165195,

To Fellow Crescent Lake Property Owners,

You are receiving this letter because you are within the proposed boundaries for the Crescent Lake District and we were unable to contact you in-person to distribute the petition for your property. Earlier this year, the Crescent Lake Association Board appointed five members to the Lake District Subcommittee: Ryan Peterson (Chair), Tim Kilgore, Jim Gehrke, Connie Anderson, and Alan Janssen. The Subcommittee was tasked with researching the topic of Lake Districts, networking with already-established Lake Districts, communicating their findings with property owners, and, eventually, starting the petition process.

A Lake District is a governmental body that is tasked with managing a lake or a group of lakes. Lake districts have a unique blend of powers and governance provisions tailored to fit the needs of local lake communities. A lake district is guided and operated by those that live in or own property in the district. A lake district's day-to-day operations are carried out by a board of commissioners composed of elected volunteers and local officials. The five-member Board will be comprised of at least three property owners. The other two members will be appointed by Oneida County and the Town of Crescent, respectively. The financial direction of the district is determined by district residents (electors) and property owners at an annual meeting.

Our Subcommittee believes that a Lake District is vital to the well-being of Crescent Lake due to the ever-growing infestation of Eurasian Water Milfoil (EWM). This invasive species of plant first appeared in 2015 and has quickly grown to almost all areas of the lake at a rapid pace. The Lake Association and its Board have applied for grants and collected donations to mitigate the spread of EWM, which has had some success. However, the Board anticipates the DNR-sponsored grants to become more difficult to attain in the coming years. A Lake District is unique from a Lake Association in that it's granted the ability to tax property owners a small amount on an annual basis to fund these efforts, at the discretion of property owners and electors.

For the Subcommittee to petition the County Board to formally create a Lake District, more than 51% of the owners of properties within the proposed Lake District boundary must sign on in support of the District. We have gathered many signatures already, but we still need more support in order to make this District a reality.

The topic of Lake Districts is extremely information intensive. In order to distribute as much information as possible for property owners to be as informed as possible, our Subcommittee has created several educational resources. We recommend visiting our Subcommittee's website: <https://ryanpeterson220.wixsite.com/crescentlakedistrict>. This website includes recordings of our webinars, Lake District informational resources, and our contact information.

We have attached your petition for you to sign, as well as a self-addressed envelope for you to return your petition. Our Subcommittee requests that you to return your signed petition by **October 20, 2020**. If you still have questions about the process of creating Lake Districts or our specific proposed Lake District feel free to contact our Subcommittee members.

Thanks,

Hello Crescent Lake Neighbors,

First and foremost, the Crescent Lake Subcommittee hopes that all Crescent Lake property owners and their families are staying safe and healthy during these unprecedented times.

Our Subcommittee has recently begun reviewing the hundreds of petitions received during our petition collection over the course of the summer months. It was crucial for our committee to review the collected petitions to ensure that they met the criteria put forward by Oneida County and the relevant state statues governing Lake Districts. Petitions that are deemed inaccurate by Oneida County after submittal will be disqualified and not counted towards our overall total of petitions. As a reminder, we need 51% of the Lake's property owners to sign petitions and then have them approved by the County in order to create the Lake District.

There were several issues with the petitions that we collected and subsequently reviewed. These issues are summarized below:

1. Many signatures did not identically match the name listed on the petition; middle names/initials must be included within the signature and the printed name in order to be valid.
2. Properties held within a trust and/or by multiple owners must identify the Trustee/POA adjacent to the signature.
3. Signatories must sign on the signature line corresponding to their printed names earlier in the document (Owner 1 must sign on the line for Owner 1, etc.).
4. Completed petitions cannot be sent electronically. Only original petitions will be collected by the County.

While our Subcommittee greatly appreciates you/your family signing your provided petition the first time, we are requesting that you re-sign your petition and mail it back to the address listed on the envelope provided. We are requesting that all petitions be mailed back by **Sunday, November 15<sup>th</sup>**.

Moving forward, after our collection of signatures has concluded, we will be submitting our petitions and other required documents to the County Clerk for their review. Following the submittal, our request to form a Lake District will appear before Oneida County's Conservation and UW-EX Education Committee, where they will confirm that all required materials are present within the submission.

A public hearing will be held within 30 days of the submittal. All property owners within the District will be sent a notice of the public hearing by the County. The public hearing is a chance for residents and property owners to voice their concerns and/or support for the Lake District. Following the public hearing, the County will have up to six months to approve or deny the request to form a Lake District.

If you have any questions about the petition signing process or the proposed Lake District, please do not hesitate to contact one of the Subcommittee members.

Thanks,

## Proposed Crescent Lake District Petition Signature and Land Area Summary

Wis. Stat. 33.25 (1) states:

- (a) Before a County Board may establish a district under s, 33.235 or 33.24, a petition requesting establishment shall be filed with the county clerk, addressed to the board and signed by persons constituting 51% of the landowners or the owners of 51% of the lands within the proposed district. Governmental subdivisions, other than the state or federal governments, owning lands within the district are eligible to sign such petition. A city council or village or town board may by resolution represent persons owning lands within the proposed district who are within its jurisdiction, and sign for all such landowners.

Table A, below, represents the number of eligible singers and the verified signers for the petition of the proposed district. The total number of eligible signatures was determined using the 2019 tax roll and an extensive review of the signature pages submitted was done by Land Conservation and Land Information staff. Based on Oneida County's review, the Petitioners obtained 65.8% of the landowners eligible signatures and exceeded the 51% minimum signatures as indicated in the Statute.

**Table A**

Total Eligible Signatures	389
Total Verified Petition Signatures	256
Percentage of Verified Signatures	65.8%

The acreage in Table B, below, was determined by using the Oneida County Geographic Information System (GIS) parcel mapping software.

The total area of the parcels within the proposed district is approximately 450.49 acres. The total area of the parcels whose signatures were verified is approximately 287.78 acres. Therefore, it is determined that the landowners of 63.88% of the lands within the proposed district signed the petition and exceeded the 51% minimum land as indicated in the Statute.
