

Rental Agreements

In order to promote wildlife habitat development, conservation practices and native landscape reconstruction on private land, the Oneida County Land and Water Conservation Department, in cooperation with the Wisconsin Department of Natural Resources, has the items listed in this brochure for rent.

Reservations for rentals of these pieces of equipment are available through contacting the following persons: For the Anchor Chain Scarifier, and the Tree Planter, contact Manny Oradei, DNR Forester, at 715-365-2637.

You don't have to be an Oneida County resident to lease this equipment. Contact the Oneida County Land and Water Conservation Department at 715-369-7835 for additional information on rental fees, agreements or procedures.

Department**

Rent from Oneida County!

The Oneida County Land and Water Conservation Department, along with the Wisconsin Department of Natural Resources, has some pieces of forestry equipment to rent out to landowners and/or contractors. Available is a portable timber bridge, tree planter and anchor chain (aka scarifier).

If you are involved in logging operations and/or forestry restoration, keep us in mind for the right piece of equipment. You do not have to be an Oneida County resident to lease any of the following equipment.

Timber Bridge

This 2-piece, portable timber bridge is mostly used by loggers to cross a small stream or wetland. It is 25 feet in length, 11 feet wide and breaks down to fit on a trailer. New decking has been installed recently and it is ready to go.

Rental fees for the timber bridge are as follows: \$100 per month plus tax with a \$500 refundable deposit.

Tree Planter

This pull-behind tree planter is great behind an ATV or tractor, but a hand planter is also available. A hand planter is good to use if you do not have many trees to plant or are in areas that the pull-along planter cannot reach. The hand planter can also be used on natural areas where motorized vehicles are not allowed or not desirable.

Rental fees for this planter are as follows: \$10/day plus tax with a \$30 refundable deposit. There will be a \$100 per day late fee charged if the equipment is not returned by the scheduled due date. See the Rental Agreements panel for more information.

Updated: April, 2021

Anchor Chain (aka scarifier)

Our anchor chain, also called a scarifier, is used to provide a mineral soil seedbed for natural or artificial seeding, or for planting on larger parcels of land. The anchor chain comes with a trailer for easy transportation.

Rental fees for the anchor chain are as follows: \$15 per acre plus tax with a \$250 refundable deposit. A late fee will be charged if the equipment is not returned by the scheduled due date.

See the Rental Agreements panel for more information on how to rent any of these pieces of equipment.
