

## WEBINAR TRAINING OPPORTUNITIES

Check out the following prerecorded webinars on our website at <http://wislandwatermedia.org/webinars/> -

- **Advice from County Conservationists for LCC Members** (video)
- **Advice from County Conservationists for Staff** (video)
- **Advice from LCC Members for LCC Members** (video)
- **Advice from LCC Members for Staff** (video)
- **Chapter 92**
- **Conservation Reserve Enhancement Program (CREP)**
- **Grant Funding for Agricultural Runoff Pollution Abatement**
- **How to Get Involved with WI Land+Water**
- **Introduction to DATCP's Nutrient Management Program**
- **Land and Water Resource Management (LWRM) Plans**
- **Multi-Discharger Phosphorus Variance**
- **Nonpoint Source Pollution Abatement Program**
- **Soil and Water Resource Management (SWRM) Grants**
- **Who is WI Land+Water?**
- **WDNR Nonpoint Program Stepped Enforcement**
- **WI State Land and Water Conservation Board (LWCB) Basics**
- **Wisconsin TMDLs**
- **Youth Education County Guide to Poster & Speaking Contests**

Following is the upcoming live webinar -

### **PROPRIETARY STORM WATER FILTRATION DEVICES (1010)**

**Wednesday, December 2 (10:00-11:00 a.m.)** (November 5 webinar maxed out on capacity)

**Register by noon on November 30 at <https://conta.cc/3cx03yn>**

*This presentation will go over the new WDNR technical standard of Proprietary Storm Water Filtration Devices (1010). These are commercially available flow-through devices to remove storm water pollutants. They are generally below ground chambers with replaceable granular media cartridges or membrane. The potential use and general sizing of these devices to meet ch. NR 151 post-construction performance standards for total suspended solids and total phosphorus will be discussed. 1 PDH will be offered. Presenter: Eric Rortvedt, DNR*

**Recordings of the webinar will be posted at <http://wislandwatermedia.org/webinars/>**  
**For more information on these webinars, please contact Penny at [penny@wisconsinlandwater.org](mailto:penny@wisconsinlandwater.org)**
